ENG

Code table for the safe.

You can see the code variants in the table.

Each digit in the " **PASS** " column complies with a certain digit in the circle column " **I** ", " **II** ", " **III** ".

For example: password **321**

The first digit of the password " **3** " will be in circle " **I** " and comply with digit " **2** ".

The second digit of the password " **2** " will be in circle " **II** " and comply with the digit under " **6** ".

The third digit of the password " **1** " will be in circle " **III** " and comply with the digit under " **0** ".

RU

Таблица кодов для сейфа.

Варианты кода можно посмотреть в таблице.

Каждая цифра в графе " **PASS** " соответствует определенная цифра в графе " **I** ", " **II** ", " **III** ".

Например: пароль **321**

Первая цифра пароля " **3** " будет находиться в круге " **I** " и соответствовать цифре " **2** ".

Вторая цифра пароля " **2** " будет находиться в круге " **II** " и соответствовать цифре под " **6** ".

Третья цифра пароля " **1** " будет находиться в круге " **III** " и соответствовать цифре под " **0** ".

UKR

Таблиця кодів для сейфа.

Варіанти коду можна подивитися в таблиці.

Кожній цифрі в графі " **PASS** " відповідає певна цифра в графі " **I** ", " **II** ", " **III** ".

Наприклад: пароль **321**

Перша цифра пароля " **3** " буде знаходитися в колі " **I** " і відповідати цифрі " **2** ".

Друга цифра пароля " **2** " буде знаходитися в колі " **II** " і відповідати цифрі під " **6** ".

Третя цифра пароля " **1** " буде знаходитися в колі " **III** " і відповідати цифрі під " **0** " .

DEU

Kodetabelle für den Safe.

Die Kodevarianten finden Sie in der Tabelle.

Jede Ziffer in der Spalte " **PASS** " entspricht einer bestimmten Ziffer in der Spalte " **I** ", " **II** ", " **III** ".

Zum Beispiel: Passwort **321**

Die erste Ziffer des Passworts " **3** " befindet sich im Kreis " **I** " und entspricht der Ziffer " **2** ".

Die zweite Ziffer des Passworts " **2** " befindet sich im Kreis " **II** " und entspricht der Ziffer unter " **6** " .

Die dritte Ziffer des Passworts " **1** " befindet sich im Kreis " **III** " und entspricht der Ziffer unter " **0** ".

FRA

Tableau des combinaisons pour le coffre-fort.

Les possibilités de combinaisons se trouvent dans le tableau.

Chaque chiffre de la colonne " **PASS** " correspond à un chiffre spécifique de la colonne " **I** ", " **II** ", " **III** ".

Par exemple, mot de passe **321**

Le premier chiffre du mot de passe " **3** " sera dans le cercle " **I** " et correspondra au chiffre " **2** ".

Le deuxième chiffre du mot de passe " **2** " sera dans le cercle " **II** " et correspondra au chiffre sous le " **6** ".

Le troisième chiffre du mot de passe " **1** " sera dans le cercle " **III** " et correspondra au chiffre sous le " **0** ".

ITA

Tabella dei codici per la cassaforte.

Per le varianti del codice vedi la tabella.

Ciascuna cifra nella colonna " **PASS** " corrisponde ad una determinata cifra nella colonna " **I** ", " **II** ", " **III** ".

Esempio: password **321**

La prima cifra della password " **3** " si troverà sul disco " **I** " e corrisponderà alla cifra " **2** ".

La seconda cifra della password " **2** " si troverà sul disco " **II** " e corrisponderà alla cifra " **6** ".

La terza cifra della password " **1** " si troverà sul disco " **III** " e corrisponderà alla cifra " **0** ".

ESP

Tabla de códigos para la caja fuerte.

Se puede ver las variantes del código en la tabla.

A cada cifra en la columna " **PASS** " corresponde una cifra determinada en la columna " **I** ", " **II** ", " **III** ".

Por ejemplo: contraseña **321**

La primera cifra de la contraseña " **3** " estará en el círculo " **I** " y corresponderá a la cifra bajo el " **2** ".

La segunda cifra de la contraseña " **2** " estará en el círculo " **II** " y corresponderá a la cifra bajo el " **6** ".

La tercera cifra de la contraseña " **1** " estará en el círculo " **III** " y corresponderá a la cifra bajo el " **0** ".

POL

Tabela kodów dla sejfu.

Warianty kodu można zobaczyć w tabeli.

Każda cyfra w kolumnie " **PASS** " odpowiada określonej cyfrze w kolumnie " **I** ", " **II** ", " **III** ".

Na przykład: hasło **321**

Pierwsza cyfra hasła " **3** " będzie znajdować się w kole " **I** " i odpowiadać będzie cyfrze pod " **2** "

Druga cyfra hasła " **2** " będzie znajdować się w kole " **II** " i odpowiadać będzie cyfrze pod " **6** ".

Trzecia cyfra hasła " **1** " będzie w kole " **III** " i odpowiadać będzie cyfrze pod " **0** ".

ENG

Once you have assembled the door of safe, it is recommended to check the password combination several times.

To create the code, you must:

- Rotate the lock knob for two turns counterclockwise (left) and on the third turn set the first digit of password.

- Then rotate the lock knob for clockwise (right) until the click and set the second digit of the password on the second turn.

- In order to set the last digit of the password, rotate the lock knob counterclockwise (left) until it clicks and set the last digit of the password.

RU

Собрав дверь сейфа, рекомендуется проверить комбинацию пароля несколько раз.

Для выставления кода необходимо:

- Сделать два оборота ручки против часовой стрелки (влево) и на третий оборот выставить первую цифру пароля.

- Повернуть ручку по часовой стрелке до характерного щелчка и выполнить один оборот по часовой стрелке (вправо) и на втором обороте выставить вторую цифру пароля.

- Для того чтобы выставить последнюю цифру пароля необходимо повернуть ручку против часовой стрелки (влево) до характерного щелчка и выставить последнюю цифру пароля.

UKR

Зібравши двері сейфа, рекомендується перевірити комбінацію пароля кілька разів.

Для виставлення коду необхідно:

- Зробити два оберти ручки проти годинникової стрілки (вліво) і на третій оберт виставити першу цифру пароля.

- Повернути ручку за годинниковою стрілкою до характерного клацання і виконати один оберт за годинниковою стрілкою (вправо) і на другому оберті виставити другу цифру пароля.

- Для того щоб виставити останню цифру пароля необхідно повернути ручку проти годинникової стрілки (вліво) до характерного клацання і виставити останню цифру пароля.

DEU

Nach der Montage der Safetür empfehlen wir, die Passwortkombination mehrmals zu überprüfen.

Für Kodeeinstellung benötigen Sie:

- Drehen Sie den Knopf zwei Mal gegen den Uhrzeigersinn (nach links) und stellen Sie die erste Ziffer des Passworts bei der dritte Umdrehung ein.

- Drehen Sie den Knopf im Uhrzeigersinn bis ein charakteristisches Klicken eintritt und führen Sie eine Umdrehung im Uhrzeigersinn (nach rechts) durch und stellen Sie die zweite Ziffer des Passworts bei der zweiten Umdrehung ein.

- Um die letzte Ziffer des Passworts einzustellen, drehen Sie den Knopf gegen den Uhrzeigersinn (nach links) drehen, bis er klickt, und die letzte Ziffer des Passworts einstellen.

FRA

Une fois la porte du coffre-fort montée, il est conseillé de vérifier plusieurs fois la combinaison de mot de passe.

Pour régler une combinaison vous devez :

- Faire deux tours de la poignée dans le sens antihorlogique (vers la gauche) et fixer le premier chiffre du mot de passe pour le troisième tour.

- Tourner le bouton dans le sens horaire jusqu`à un déclic caractéristique et faites un tour dans le sens horaire (vers la droite) et réglez le deuxième chiffre de la combinaison pendant le deuxième tour.

- Afin de régler le dernier chiffre de la combinaison, tournez le bouton dans le sens antihoraire (vers la gauche) jusqu`à ce qu`il clique et régler le dernier chiffre du mot de passe.

ITA

Una volta assemblata la porta della cassaforte, si consiglia di controllare più volte la combinazione della password.

Per impostare il codice è necessario:

- Fare due giri della manopola in senso antiorario (a sinistra) e impostare la prima cifra della password al terzo giro.

- Ruotare la manopola in senso orario fino a un clic caratteristico ed eseguire una rotazione in senso orario (a destra) e impostare la seconda cifra della password al secondo giro.

- Per impostare l`ultima cifra della password, ruotare la maniglia in senso antiorario (a sinistra) prima di fare clic e visualizzare l`ultima cifra della password.

ESP

Una volta assemblata la porta della cassaforte, si consiglia di controllare più volte la combinazione della password.

Per impostare il codice è necessario:

- Fare due giri della manopola in senso antiorario (a sinistra) e impostare la prima cifra della password al terzo giro.

- Ruotare la manopola in senso orario fino a un clic caratteristico ed eseguire una rotazione in senso orario (a destra) e impostare la seconda cifra della password al secondo giro.

- Para mostrar el último número de contraseña, debe girar el bolígrafo en sentido contrario (a la izquierda) antes de hacer clic y mostrar el último número de contraseña.

POL

Po zmontowaniu drzwi sejfu zalecane jest kilkakrotne sprawdzenie kombinacji hasła.

Do ustawienia kodu konieczne jest:

- Wykonać dwa obroty pokrętła w kierunku przeciwnym do ruchu wskazówek zegara (w lewo) i na trzecim obrocie ustawić pierwszą cyfrę hasła.

- Obrócić uchwyt zgodnie z ruchem wskazówek zegara, aż do charakterystycznego kliknięcia i wykonać jeden obrót zgodnie z ruchem wskazówek zegara (w prawo), a przy drugim obrocie ustawić drugą cyfrę hasła.

- Aby ustawić ostatnią cyfrę hasła, obróć uchwyt przeciwnie do ruchu wskazówek zegara (w lewo), aż kliknie i ustawić ostatnią cyfrę hasła.
