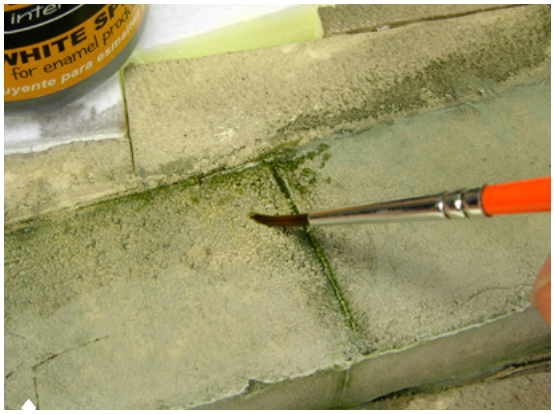
GENERAL USAGE

HOW TO USE PRODUCT GUIDE

AK 676
MOSS DEPOSIT

Specifict product to create most over decadence aparence over any surface. This is due to the especially designed enamel paint which, when dry has a light surface texture. It come be mixed with Slimy Grimy or Wet Effects to achive an ultr realistic result.

Selec the area were to apply the product using a round brush.



Work the product smoothing the edges to blen it properly with the surface. It can be used with white spirit in this process.

Once dry the result is a very realistic matt moss and you can use Wet Effects if you prefere a more wet look.

The process can be applied in wood, concrete or vehicles.
